

There's more to discover.
There's more to become.

With so many options available to students as they leave school or college, entering the world of work for the first time can be daunting. At Barclays, we are committed to providing young adults with exciting opportunities so that they can fulfil their future potential and start their careers with the right support.

Join us for a parents insight session during National Apprenticeship Week 2020 to learn more about Apprenticeships at Barclays. You'll hear first-hand from our current Apprentices and their parents about what it's like to be part of the programme, and will have the opportunity to ask them questions alongside our Early Careers teams. We will also walk through the application and assessment process, and the support available through our LifeSkills programme.

Who should attend?

- Year 10 Parents, interested in Foundation Apprentice opportunities for their children once they complete their Year 11 GCSE's (or equivalent)
- Year 12 Parents, interested in Higher Apprentice opportunities for their children once they complete their Year 13 A-Level's (or equivalent)
- Any parents interested in Barclays Apprenticeships overall
