

Key Stage 3 Report

Understanding progress & assessment

Year 9

ST HILDA'S
CE HIGH SCHOOL

WISDOM

HOPE

COMMUNITY

DIGNITY

EQUALITY

Art & Design

Year 9 Units of Study

During year 9 you will study the following units of work in Art, for more information regarding the learning objectives within each unit of work please see the unit plan and knowledge organiser which is presented in your child's sketch book.

Unit Title	Approximate number of weeks	Term unit completed
Drawing portraits	10	Autumn
Printmaking and painting	6	Spring
Personal response - final portrait	5	Spring

Year 9 Assessment

In Art and Design, students are assessed using a combination of baseline tests, teacher-led practical activities, homework and student-led personal response activities for each project.

How can my child improve?

For individual targets on how to improve, please see the feedback sheets in sketch books after each end of unit review.

How can my child extend their learning?

Visiting galleries, drawing from direct observation, taking photographs, watching video tutorials

www.thestudentartguide.com

www.henitalks.com

www.tate.org.uk

www.ted.com

Design Technology

Year 9 Units of Study

During year 9 you will study the following units of work in Design Technology, for more information regarding the learning objectives within each unit of work

Unit Title	Approximate number of weeks	Term unit completed
Material Properties	2	Autumn
Woods	3	Spring
Metals	3	Spring
Smart and Composite Materials	3	Summer
Ecological and Social Footprint	7	Summer

Year 9 Assessment

In Design Technology, students are assessed using their written responses to questions and will have practical skills assessed using success criteria which describes what they need to do to progress.

How can my child improve?

For individual targets on how to improve, students should refer to the success criteria in their folders, which highlights their current attainment and explains to them what they need to do to progress.

How can my child extend their learning?

www.bbc.co.uk/bitesize

www.technologystudent.com

Drama

Year 9 Units of Study

During year 9 you will study the following units of work in Drama.

Unit Title	Approximate number of weeks	Term unit completed
Text in action: Noughts and Crosses	17	Spring
Devising Drama: Frantic Assembly	14	Spring
Responding to live theatre	6	Summer

Year 9 Assessment

In Drama, students are given verbal feedback on their contributions to both the development and performance of theatre throughout the unit, as well as an end of unit performance.

How can my child improve?

Students can improve in Drama by consistently applying the verbal feedback received during lessons.

How can my child extend their learning?

www.bbc.co.uk/bitesize

www.digitaltheatreplus.com

English

Year 9 Units of Study

During year 9 your child will study English Language and English Literature within the following units of work. For more information regarding the learning objectives within each unit of work please see the Unit Plan in their exercise book.

Unit Title	Approximate number of weeks	Term unit completed
Scripting Life: Tracking characterisation in <i>The Curious Incident of the Dog in the Nighttime</i> and exploring connections between language and identity.	14	Autumn
Broadening Horizons: Responding to poetry from different cultures and writing to express a viewpoint with a focus on letters.	12	Spring
Morality: Using Oscar Wilde's Short Stories and Aesop's Fables as a springboard to write morality tales.	11	Summer

Year 9 Assessment

In English, students are given regular feedback on their contributions to class tasks, individual and group activities as well as formative and summative review points for each unit. For more information regarding content within each unit of work, please see the Unit Plan for the relevant topic that your son/daughter is currently studying within English.

How can my child improve?

For individual targets on how to improve and a breakdown of skills assessed, please refer to the specific feedback given for the review points in your child's exercise book.

How can my child extend their learning?

www.bbc.co.uk/bitesize

www.gcsepod.com

Food Technology

Year 9 Units of Study

During year 9 you will study the following units of work in Food Technology. Pupils will develop a range of practical skills and will be assessed both practically and on the theory based topics.

Unit Title	Approximate number of weeks	Term unit completed
Unit 1- Safe food practices, environmental factors and practical skills	6	Autumn
Unit 2- Excess and deficiency, Labelling requirements and practical skills	6	Spring
Unit 3- Cooking methods, practical skills and end of unit test.	6	Summer

Year 9 Assessment

In Food Technology, students are assessed using their written responses to questions and will have practical skills assessed using success criteria which describes what they need to do to progress.

6 assessment points will take place- 2 per unit:

Shortcrust pastry pie, Bean chilli, Raspberry buns, Food labelling, samosas and an end of unit test.

How can my child improve?

For individual targets on how to improve, students should refer to the success criteria in their folders, which highlights their current attainment and explains to them what they need to do to progress.

www.technologystudent.com

French

Year 9 Units of Study

During year 9 you will study the following units of work in French.

Unit Title	Approximate number of weeks	Term unit completed
"T'es branché"-	7	Autumn
"Paris, je t'adore "	6	Spring
Bien dans sa peau	10	Summer

Year 9 Assessment

In French, students are assessed using a combination of regular vocabulary tests, regular translation tests, teacher-devised homework writing tasks, independent and creative projects (such as producing a postcard of your visit to Paris), speaking activities in class (such as interviews and role-plays), listening and reading activities in class, end of units assessments (assessing the four skills of Listening, Reading, Writing and Speaking).

How can my child improve?

For individual targets on how to improve, please consult your French exercise book and the feedback given after each writing homework task and after each end of unit assessment. Also refer to the end of the French book, to the dedicated pages and support sheets on how to produce a good written piece of work (feedback marking support mat).

How can my child extend their learning?

- Vocabulary weekly practice on [QUIZLET.com](https://www.quizlet.com/) (carry out at least 3 activities and then take a test).
- Further vocabulary practise: [memrise.com](https://www.memrise.com/)
- Translation and sentence-building: [duolingo.com](https://www.duolingo.com/)
- [bbc.co.uk/bitesize](https://www.bbc.co.uk/bitesize)

Geography

Year 9 Units of Study

During year 9 you will study the following units of work in Geography, for more information regarding the learning objectives within each unit of work please see the Unit Plan for the relevant topic that your son/daughter is currently studying within Geography. More specific information regarding the key knowledge within each topic can be found in the Knowledge Organiser which is found in your child's exercise book.

Unit Title	Approximate number of weeks	Term unit completed
Why is the Middle East an important world region?	7	Autumn
Why is health and disease a Geographical issue?	7	Autumn/Spring
Iceland: a synoptic study	6	Spring
Changing Climate	8	Spring/Summer
Dynamic Development	8	Summer

Year 9 Assessment

In Geography, students are assessed using a combination of assessed starter activities, homework, individual and group activities and end of unit assessments. Assessments throughout the year will consist of a varying blend of tasks and activities which tests the knowledge and understanding from the variety of units studied throughout your time at St. Hilda's.

How can my child improve?

For individual targets on how to improve, please refer to the specific feedback given for the end of unit assessments in your child's exercise book. To extend your own learning, make use of the knowledge organiser for each unit for your child to self-evaluate and self-assess their knowledge and understanding of different topics. This is something you can encourage by asking them questions about content within the knowledge organiser.

How can my child extend their learning?

The topics in year 9 will draw upon and build on knowledge learned throughout Year 7 and 8 Geography, therefore regularly recapping this content throughout Year 9 is essential.

<https://senecalearning.com/en-GB/>

German

Year 9 Units of Study

During year 9 you will study the following units of work in German.

Unit Title	Approximate number of weeks	Term unit completed
Schulfächer	6	Autumn
Meine Schule	6	Autumn
Reise!	6	Spring
Sommerferien	6	Spring
war die Stadt?	6	Summer
hast du in den Ferien gemacht?	6	Summer

Year 9 Assessment

In German, students are assessed using a combination of regular vocabulary tests, regular translation tests, teacher-devised homework writing tasks, independent and creative projects (such as producing a poster to describe my school bag), speaking activities in class (such as interviews and role-plays), listening and reading activities in class, end of units assessments (assessing the four skills of Listening, Reading, Writing and Speaking).

How can my child improve?

For individual targets on how to improve, please consult your German exercise book and the feedback given after each writing homework task and after each end of unit assessment. Also refer to the end of the German book, to the dedicated pages and support sheets on how to produce a good written piece of work (feedback marking support mat).

History

Year 9 Units of Study

During year 9 you will study the following units of work in History. Specific information regarding the key knowledge within each topic can be found in the Knowledge Organiser which is found in your child's exercise book.

Unit Title	Approximate number of weeks	Term unit completed
Democracy vs Dictatorship - Is it better to live in a Democracy or a Dictatorship?	7 Weeks	Autumn
Depth Student - Why was Hitler able to come to power in Germany?	4 weeks	Autumn
Depth study - How was Hitler able to control the ordinary people?	10 weeks	Spring
The Holocaust- How and why was the persecution of the Jews possible in Germany?	3 weeks	Spring
WW2 - Which is the most significant enter for determining the outcome of WW2?	6 weeks	Summer
Who shot JFK?	5 weeks	Summer

Year 9 Assessment

In History, students are assessed using a combination of assessed starter activities, homework, individual and group activities and end of unit assessments.

How can my child improve?

For individual targets on how to improve, please refer to the specific feedback given for the end of unit assessments in your child's exercise book.

ICT/Computing

Year 9 Units of Study

For information regarding the learning objectives within each unit of work, please see the assessment objectives for each unit on Teams. A knowledge organiser for each unit is uploaded to Teams and students have a paper copy in their folders in school.

Unit Title	Approximate number of weeks	Term unit completed
Introduction to Cyber Security	7	Autumn
Developing for the Web	6	Autumn
Python Programming	6	Spring
Introduction to Physical Programming	6	Spring
Introduction to creating Media Graphics	6	Summer

Year 9 Assessment

For each unit that they study, students will be assessed using a combination of an end of unit assessment test, the practical/theoretical activities that they have participated in during lessons, and using their homework. At Key Stage 3, this work will be evidenced and marked mostly via Microsoft Teams.

How can my child extend their learning?

Students can explore and develop their coding skills outside of lessons, by using one of the following websites;

<https://code.org/learn>

<https://www.sololearn.com>

<https://scratch.mit.edu/>

Mathematics

Year 9 Units of Study

During year 9 you will study the following units of work in Maths, for more information regarding the learning objectives within each unit of work please see the unit plan and knowledge organizer which is presented in your child's exercise book at the start of each unit.

Unit Title	Approximate number of weeks	Term unit completed
Indices & Standard Form	3	Autumn
Expressions & Formulae	4	Autumn
Dealing with Data	3	Autumn
Multiplicative Reasoning	4	Autumn
Constructions	3	Spring
Equations, Inequalities & Proportionality	3	Spring
Circle, Pythagoras and Prisms	3	Spring
Sequences & Graphs	4	Spring
Probability	4	Summer
Comparing Shapes	4	Summer

Year 9 Assessment

In Maths, students are assessed using assessed starter activities, homework and an end of unit check in test.

How can my child improve?

For individual targets on how to improve please see the DIRT sheets in exercise books after each end of unit check in test.

Music

Year 9 Units of Study

During year 9 you will study the following units of work in Music, for more information regarding the learning objectives within each unit of work

Unit Title	Approximate number of weeks	Term unit completed
The Blues	7	Autumn
Video Game Music	6	Autumn
New Directions	6	Spring
Road Trip - The Music of the Middle East	5	Spring
Music from 1960-1970	6	Summer
Music from 1980-2000	6	Summer

Year 9 Assessment

In Music, students are assessed at the start or end of lessons through listening exercises. They are assessed each term on their composition or performance skills.

How can my child improve?

For individual targets on how to improve pupils can refer to their MADTSHIRT rulers in their books.

How can my child extend their learning?

www.bbcbitesize.com

www.teoria.com

www.musicfirst.co.uk

[Also, listening to Spotify to further their knowledge of music genres.](#)

Physical Education

Year 9 Units of Study

During year 9 you will study the following units of work in PE. For more information on what skills and knowledge students will develop please see the unit plan. Learning objectives are cross transferable and will be applied to each sporting activity that students complete.

Unit Titles (Girls)		Unit Titles (Boys)		Approximate number of weeks	Term unit completed
Set 1	Set 2	Set 1	Set 2		
Netball	Badminton	Football	Table Tennis	3	Autumn
Fitness	Hockey	Badminton	Basketball	3	Autumn
Badminton	Netball	Table Tennis	Football	3	Autumn
Football	Fitness	Basketball	Badminton	3	Spring
Table Tennis	Badminton-Netball	Rugby	Football-Badminton	3	Spring
Badminton-Netball	Table Tennis	Football-Badminton	Fitness	3	Spring
Rounders/Athletics		Cricket/Athletics		6	Summer
Cricket/Athletics		Softball/Athletics		6	Summer

Year 9 Assessment

In PE, students are assessed using baseline assessments at the start of the year and teacher led practical activities throughout each sport/physical activity. Students are assessed in both isolation/skill practices, match play, competition or created routines.

How can my child improve?

Students can improve their skills and ability to apply skills in match play by attending extra-curricular clubs. We have an extensive timetable with activities running before school, lunch time and after school. Students can also improve by represent the school in various sports in the local and wider areas testing their ability against students from other schools.

How can my child extend their learning?

Students can extend their learning by keeping active whilst at home by joining a local sports club or why not try starting one of these as a family:

<https://www.nhs.uk/live-well/exercise/couch-to-5k-week-by-week/>
<https://www.parkrun.org.uk/>

Religious Studies

Year 9 Units of Study

During year 9 you will study the following units of work in RS.

Unit Title	Approximate number of weeks	Term unit completed
Philosophy - Where is God?	6-8	Autumn
How do religions respond to ethical dilemmas?	6-8	Autumn
Religious ideas about relationships and families.	6-8	Spring
Christian Beliefs	6-8	Spring
Christian Practices	6-8	Summer
Skills	6-8	Summer

NB: Due to some classes being taught by two teachers the order in which units are completed may vary to the table above.

Year 9 Assessment

In Religious Studies, students are assessed using a combination of written and oral classwork in addition to end of unit examinations. Specific information regarding the key knowledge within each topic can be found in the Knowledge Organiser.

How can my child improve?

For individual targets on how to improve, please refer to the specific feedback given for the end of unit assessments in your child's exercise book.

How can my child extend their learning?

Your child can extend their learning by using the knowledge organisers they have been provided with and by accessing the home learning booklets and revision resources on Microsoft Teams.

Science

Year 9 Units of Study

During year 9 you will study the following units of work in Science.

Unit Title	Approximate number of weeks	Term unit completed
Fundamentals of Chemistry	6	Autumn
States of Matter	6	Spring
Forces	5	Spring
Cells	5	Spring
Ecology	6	Summer
Atmosphere and resources	5	Summer

Year 9 Assessment

In Science, students are assessed by started activities, quizzes, tasks, practical investigations, homework and end of unit learning checks/assessments. There are usually two review home works during each topic to assess the students' progress during the topic as well as the learning check at the end of the topic.

How can my child improve?

For individual targets on how to improve see DIRT sheets at the end of each learning check and additional teacher comments.

How can my child extend their learning?

<https://senecalearning.com/en-GB/>

<https://www.bbc.co.uk/bitesize/levels/z4kw2hv>

<https://classroom.thenational.academy/>

Watching Science documentaries.

Reading about Science in books, magazines, on-line and the news.

Spanish

Year 9 Units of Study

During year 9 you will study the following units of work in Spanish.

Unit Title	Approximate number of weeks	Term unit completed
Holidays	12	Autumn
My life and my mobile	12	Spring
Food	12	Summer

Year 9 Assessment

In Spanish, students are assessed using a combination of regular vocabulary tests, regular translation tests, teacher-devised homework writing tasks, independent and creative projects (such as producing a poster to describe my school bag), speaking activities in class (such as interviews and role-plays), listening and reading activities in class, end of units assessments (assessing the four skills of Listening, Reading, Writing and Speaking).

How can my child improve?

For individual targets on how to improve, please consult your Spanish exercise book and the feedback given after each writing homework task and after each end of unit assessment. Also refer to the end of the Spanish book, to the dedicated pages and support sheets on how to produce a good written piece of work (feedback marking support mat).

Assessment Dates for the Forthcoming Term

During form time each Monday students are working on 'Learn to Learn'. This involves them learning how best to work independently, looking at how to develop skills of organisation and beginning to understand how to revise. As a part of this we are providing the following dates for students as an indication as to when they will have in class assessments over the forthcoming term. The numbers after each subject indicate the unit number that is being assessed.

These dates are only guidance and are subject to change depending on the progress of individual classes.

The class teacher will notify students as to the exact date of any assessment.

Week	Week beginning	Subjects
1	03/01/22	RS 2
2	10/01/22	Music 2 Listening
3	17/01/22	Maths 2 & 3
4	24/01/22	PE 4
5	31/01/22	Art 2 German 2
6	07/02/22	Music 3 Skills DT 6 & Food 6 (Rotation 1) ICT 3
7	14/02/22	Music 3 Skills Spanish 3
Half Term		
8	28/02/22	PE 5 DT 1 (Rotation 2)
9	07/03/22	Music 3 Listening Geography 2 & 3 Science 3 RS 3
10	14/03/22	Maths 4 & 5 DT 2 & Food 1 (Rotation 2)
11	21/03/22	Maths 6 English (to complete either week 11, 12 or 13)
12	28/03/22	Music 4 Skills Science 4 German 3
13	04/04/22	French 2 Music 4 Skills Spanish 4 DT 3 & Food 2 (Rotation 2) ICT 4
